

Smart Cities

Intelligent Solutions for Demanding Cities

The 360° Integrated View for City Management

Compta Emerging Business offers municipalities a cloud based city management platform - BEE2, that allows institutions to have a global unified view on all city related daily operations and management.

Specific sectorial city management modules (from Compta or 3rd party), are loaded on-top of BEE2 platform as peer to each city needs allowing a modular but integrated approach.

MODULES, APPLICABILITY & IMPACTS
for Sustainability and Efficiency Goals

Savings & Efficiency Improvements

Taken from the historical record of implementations in more than 40 cities, Compta Smart City Modules have been helping cities to achieve the following average results:
